		Work	Details	Owner	Progress	Mon	Tue	Wed	Thu	Fri	Sat	Sun	Mon	Tue	Wed	Thu	Fri	Sat	Sun	Mon	Tue	Wed	Thu	Fri	Sat	Su	
Data collection and Preprocessing	Common	Define project scope			complete																						
	Common	Drafting a plan			complete																						
	Common	Collect relevant datasets	ex) Seoul water data		complete																					4	
	Common		ex) Water quaility statistics		complete																						
	Common		ex) Dam Reservoir Status		complete																					4	
	Planner	Data Collection	-> excel	Ria	complete																						
	Common	Preprocessing data set	preprocessing data set		complete																						
	Common	Data analysis	Data analysis		complete																						
	Planner	WBS reorganization	summary of Analysis result		complete																						
Digital Problem Solving	Developer	Check the development environment	tools and IDE settings		complete																						
	Developer		select and integrate map API		complete																						
	Designer		select a design tool		complete																						
	Designer, Developer		Developer - Designer tool plugin		complete																						
	Designer		design concept(guideline)		complete																						
	Planner		integrated management		complete																						
	Developer	Development	create basic map	Kevin	complete																						
	Developer		data extraction and display logic	Daniel	complete																						
	Developer, Designer		customize design		complete																						
	Developer		implement interaction map		complete																						
	Planner, Designer	Proposal	prepare proposal		complete																						
	Developer	testing	final build preparation		complete																						
	Planner		feedback		complete																						
Project	Planner	Outline	presentation structure		complete																						
	Planner	Visualization	compile content		complete																						
	Designer		prepare slide deck or		complete																						
	Developer	Technic	provide technic architecture		complete																						
	Common	project completion			complete
